This week the assembly will be hosted by Yr 4/5A - Miss McMahon
Everyone is invited to attend - Friday 10am

Hello from Miss Douglas!

I am very excited to begin a new semester with 3/4JR. In Term 3 we will be completing a unit focusing on our wonderful school garden. Homework and Home Reading Program will commence in Week 2. I will try and keep you updated with lots of photos and amazing work from 3/4JR.

Our New Classroom

We are very excited about our new classroom, routines and learning. Pop on in and check it out!

July 2014

Our unit for this term is titled “Which Came First…?” We are learning about the life cycles of animals and plants and looking at the different stages of growth. Our first lesson in the garden was a success, we all enjoyed sketching the chickens, planting peas with Lee and reading in the sunshine. Every Thursday afternoon we will be in the garden! It’s very exciting!

We hope to have some artwork and online projects starting soon. So watch this space!

Enjoy your week - Mel

food/power-foods-for-kids

whole section on food tips with lots of lunchbox options. We have noticed that a number of students come to school without eating breakfast or eat all their lunch on the way to school. We are talking to students about the importance of spreading their food out across the day and encourage families to back up this message with conversations at home.

CONGRATULATIONS to our GIRLS PSSA SOFTBALL TEAM who won their ROUND 4 GAME LAST WEEK AGAINST BANORA POINT PS. THIS WIN MAKES THE GIRLS FAR NORTH COAST ZONE CHAMPIONS AND THEY WILL NOW PLAY AGAINST MID NORTH COAST CHAMPIONS – GULMARRAD PS.

Brunswick Heads PS is participant in the Live Life Well @ School program. This is a joint initiative with NSW Health to promote healthy lifestyles in NSW Public Schools. One of the key messages of this initiative is that children are happier and learn better with a good breakfast and healthy lunch options. We have noticed that a number of students come to school without eating breakfast or eat all their lunch on the way to school. We are talking to students about the importance of spreading their food out across the day and encourage families to back up this message with conversations at home.

Processed, packaged foods often do not sustain children throughout the day. A lunchbox that is high in fruit, vegetables, fibre, whole grains and protein will release energy slowly and help the students learn. The A-Z School website has a whole section on food tips with lots of lunchbox ideas.

Enjoy your week - Mel
